

WHAT TO DO WHEN AN AD-SERVER DOMAIN GOT BLOCKED

- In MA go to Operations>Landing Pages>Landing Pages and download a report
- Then Generate a daily report but grouping by *Landing Page* and *Affiliate* and show results for Clicks, NDC, Deposits and Signups. Download the report
- *In a desktop folder place these 2 files and the script **blocked_domain**.*
- *In that folder open a terminal, type **python blocked_domain.py** and execute.*
- *Insert the blocked ad-server domain*
- *Share this report on **acquisition_marketing***
- *Go to Landing page section and replace the ad-server domain with a non-blocked one*
